CSRL INFORMATION

CSRL, this week is providing answers to some frequently asked questions which can assist EFL shareholders to have better understanding about the free offer of shares and the mechanisms in place should they have any queries regarding EFL shares:

FREE SHARES OFFERED BY EFL: WHAT DOES THIS MEAN?

What are Shares? Shares indicate a part ownership in a company. In the case of EFL, as a domestic electricity account holder residing in Fiji, you were given a chance to accept the free offer of non-voting shares. If you have accepted the free offer of non-voting shares, it means that you are now a shareholder (part owner) in EFL.

What Return does Share Investment provide?

Dividend Return – these are paid by a company from the profits they make and is calculated based on the number of shares you own. In case of EFL, if any dividends are declared by the company in future then you as shareholders will be entitled to this return; and

Capital Gain – this is the increase in share price of the company. In case of EFL, once the company gets listed on SPSE, EFL shareholders will have a readily available platform through which they can buy and sell their shares depending on the share price prevalent at that time.

WHAT IS THE PURPOSE OF THE EFL SHARE CERTIFICATE?

The share certificates despatched serves as an important document for EFL customers who had subscribed for the free offer of shares and is a legal proof of ownership of shares in EFL. All shareholders are requested to note that the perforated or the tear-off portion at the bottom of the share certificate does not need to be signed and/or returned to either CSRL or EFL but rather be kept by the shareholders for their own records.
